Subject: Monthly Update – July 2025

1. Pylons Across Lincolnshire

National Grid has launched a [second round of consultation on their proposed Grimsby to Walpole pylon route](#), and an initial consultation on another route through the south of Lincolnshire from [Weston Marsh in South Holland to East Leicestershire](#).

The council is putting together its own response to the consultation and I know that residents are hugely against these plans, from speaking to people on the doorstep. I urge everyone with concerns, to complete the National Grid surveys, or visit an information event and make their voice heard.

2. Lincolnshire Nuclear Waste Plan Withdrawn

Lincolnshire County Council's new Executive has voted to withdraw from Nuclear Waste Services' Community Partnership – quashing plans to store nuclear waste in the county.

Plans that earmarked Theddlethorpe on the coast as a possible site for underground nuclear waste storage, were first raised four years ago.

LCC Leader Cllr Sean Matthews "We have listened. We have acted. We have done what we said we would."

3. Helpringham

- Junction with Station Rd and High Gate assessed by Highways report to follow.
- Footpath overgrowth awaiting plan from Parish Council regarding responsibility for pruning.

Reminder for any road and pathway issues please use Fix My Street App.
